For Immediate Release:

RAY RAYBURN TO RECEIVE AES FELLOW AWARD

Boulder, CO – K2 Audio, LLC – The Awards Committee and the Board of Governors of the Audio Engineering Society have voted to award K2 Audio Senior Consultant, Ray Rayburn, the society's Fellowship Award. This award recognizes Ray's contributions to the art and science of sound system design, digital signal processing and routing, and electromagnetic compatibility. Ray has been an engineer in acoustics, audio systems, and telecommunications for 40 years. In addition to designing audio systems for some of the most well-known venues in the world, Ray has recorded the Chicago Symphony, the Philadelphia Orchestra and Frank Zappa. He is currently the Chairman of the AES Standards Subcommittee on Interconnections, and the working group on Audio Connectors, and contributed two chapters to the "Handbook for Sound Engineers, 4th edition".

Founded in 2005 by Rich Zwiebel and Deb Britton, K2 Audio is an international provider of audio/video system and acoustical design services. With over 100 years of collective experience, the representative projects of K2 Audio's staff span theme parks, government facilities, recording studios, performing arts facilities, stadiums, houses of worship, concert halls and educational facilities.
